China: My Wife has Social Credit | Investigate Asia

Watch 'China's brutal Education System: Success at any Cost?' here: • China's brutal Education System: Success a...

China has recently introduced a social credit system. In every moment of everyday life, one must now think of how to maximize one's points or lose as few as possible.

This film follows a couple in this Orwellian world where nothing escapes the eye of Beijing and its immediate sanction, and how it affects intimate and social relationships.

If anyone hasn't already noticed, Here on YouTube, they have a relatively New feature called, Hype, where you distribute points to a video or channel. It like an advanced like button, but it distributes a social credit. What ever happened to a tally of dislikes showing a real score? 😮😊😂

"Not scary at all"
Of course not if you've got a top rating but if you're a dissenter ...
I don't think I could be in a relationship with someone so uncritically obsessed with conformism in a dictatorship
